PET FOOD PACKAGING SOLUTIONS
Regardless of whether it’s for wet, dry, semi-moist food or snacks – we have the perfect packaging solution to suit every need. When it comes to product presentation, you can choose between different packaging types, shapes and the various decoration and finishing options we have in the Group, depending on the food requirements. As a complete service provider, we take responsibility for managing the entire process – from design to printing to the finishing touches. This means we can guarantee optimum impact for your display.
COVERIS

As a leading innovator in the world of wet and dry pet food packaging, we offer safe, robust solutions for the discerning pet food market. Our products stand out, with their high quality standards, practical handling and long storage life. With its wide product range, Coveris can meet virtually all pet food packaging requirements. This means that we not only offer you the familiar benefits of one-stop shopping, but also ensure a consistent image for your brand at POS at all times. In addition to this, thanks to state-of-the-art printing techniques, our designs are eye-catching and appealing on store shelves all around the world.

COVERIS

With our high-end technology, our innovative products and our global reach, we can work together to find the perfect solution for you and for your clients.

MULTIPLE TOUCH-POINTS IN-STORE

We are available to help our clients in all important fields and segments related to the protection, quality and practical use of pet nutrition. Our products can be used to present brands in a consistent, confident and eye-catching manner.

OUR STRENGTHS

- Variety of environmentally-friendly and sustainable packaging solutions
- Complete service provider for entire process
- Broad range of printing options for high-quality presentation
- Guaranteed product safety throughout the entire supply chain
- Full functionality for user-friendly application
- Optimised production processes
We offer a wide range of plastic and paper-based packaging solution for dry pet food. All options come with user-friendly opening and closing systems, guaranteeing safe protection of the product throughout the supply chain. Of course, all dry food packages are available in individual sizes and dimensions.
When it comes to wet pet food, the most important factors are freshness and hygiene. Smaller, more manageable portions that are simple and easy to use are very much in demand here. And of course, they must also stand out in terms of quality and presentation – to both the owner and their pet.
User-friendly packaging is an absolute must when it comes to handy pet snacks and treats on the go. We offer solutions that are easy to handle and reclosable. And what’s more, our products allow for all kinds of different branding options to create a customised design. Perfect for targeted communication and optimum shelf visibility.

**VERSATILE SOLUTIONS FOR SNACKS & TREATS**

**DUOSMART**
- Environmentally friendly, lightweight cups that use 50% less plastic than standard plastic packaging
- Increased brand communication thanks to high-quality printing options on both sides of the paper sleeve and underneath the optional paper bottom
- Variety of branding options with hot foil embossing or cold foil finish
- Suitable for frozen and chilled products
- Stackable packaging for efficient processing by transport and logistics
- Printed flat or domed lids for perfect transport of goods
